The essential oil and carrier oil profiles are just a plus for me. I like that this book has many chapters. It has many separate sections, and it has a lot of information! It has over 800 essential oil blends, which I am very happy about, as it's why I ordered the book. The carrier and essential oil profiles are good, and I like that there are carrier oil profiles, instead of just essential oil profiles. There is also a lot of information in this book for using essential oils with children. I got into essential oils just a few years ago. Being a complete novice I was looking for a good reference source and fortunately came across this book. I love everything about it and use it a lot! So far I've been finding more than enough information on any topic that was on my agenda.
