This is a list of important publications in cryptography, organized by field. Some reasons why a particular publication might be regarded as important: Topic creator – A publication that created a new topic. Breakthrough – A publication that changed scientific knowledge significantly. Influence – A publication which has significantly influenced the world or has had a massive impact on the teaching of cryptography. List of Publications. and a Summary of Curriculum Vitae. Teun A. van Dijk. Last updated: August 1, 2015. A. BOOKS. MONOGRAPHS For the covers of the following books, see <http://www.discourses.org/OldBooks/BookCovers/> 1. Taal. Tekst. Teken. – Spanish translation in preparation for publication by Gedisa, Barcelona, 2012. – Portuguese translation in preparation for Contexto, São Paulo, 2012. 39. Society and discourse.
