

ACKNOWLEDGEMENTS:

First and foremost I must sincerely thank my mother Cora A. Roscoe for her assistance. I want to thank each and every member of the staff of station VCS for their assistance. Especially Gus Crewe, former Technical Station Manager, Stan Cairns, former Senior Operations Supervisor, Paul du Mesnil, Leo Irwin, Everett A. Cheverie, and Robert D. Minty, former Radio Operators, and Paul Britton and William Turner, former Technicians. All have been most helpful. I must sincerely thank former Supervisors B. J. Carroll, and R. Matchim. From discussions with them over a brief history on Cape Race Radio VCE which appeared in "Ports O' Call" from the Society of Wireless Pioneers, I decided to try to learn what I could of the history of station VCS.

I must sincerely thank each of the following whose kind assistance made this possible,

the quality and quantity of this detail is mine alone.

D. C. Allard, Naval Historical Center, Washington, D.C.

Dr. Charles A. Armour, Dalhousie University Library, Halifax, N.S.

Clare Atwood, Field Enterprises Educational Corporation, Chicago, Illinois.

Michel Audet, Chambly, Quebec.

Karl Baarslag, Rodanthe, North Carolina.

Captain E.M.C. Barraclough, C.B.E., R.N., Lymington, England.

William "Bill" Baxter, former Radio Officer Canadian Coast Guard Ships.

Roger Belanger, Bedford Institute of Oceanography, Dartmouth, N.S.

John Bell, Dalhousie University, Halifax, N.S.

Gibson Bell Smith, National Archives and Records Administration, College Park, Maryland.

Superintendent J.R. Bentham, R.C.M.P., Ottawa, Ontario.

Neville G. Best, former Radio Officer, CSS HUDSON.

Margaret Betts, Transport Canada, Ottawa, Ontario.

R. de Lange Boom, Yarrows Limited, Victoria, B.C.

M.E.R. Bouffard, Iles de La Madeleine.

The general principle that quantity begets quality is a key tenet of the Marxist theory of dialectical materialism, as formulated by Marx and Engels, phrased as the law of the passage of quantitative changes into qualitative changes . This in turn is attributed to Hegel (Science of Logic), who in turn attributes it to Ancient Greek philosophers, notably the paradox of the heap. It is certainly possible that Stalin said something similar that could be interpreted this way, but it can't be definitely attributed to him. 32.8K views · View 21 Upvoters. Thank for such great Quality and quantity. Even Joseph Stalin , in particular reference to how Russia was forced to fight Germany in WWII using large numbers of under-equipped and less-well-trained soldiers. 1.4K views · 7. Thank you for your letting us have samples of we would be glad if you would supply us with. 8. Will you please arrange immediate dispatch of : 9. Please send through our forwarding agents, K. Jones and Co.Ltd., Sunderland avenue, Southampton, the following goods Referring to quality etc. 1. The quality must be up to sample. 2. Weight and colour must be as the sample supplied. 3. First class material and workmanship are essential. 4. A medium quality would be suitable. More satisfactory is a letter in which the acknowledgement takes the form of repetition of the order. This serves as a check on the accuracy of the description of the goods ordered and turns the order into a firm contract. In all other cases, a polite letter of acknowledgement is obviously good policy.
